

ENVIRONMENTAL POLICY STATEMENT.

The Directors of Top Tubes Limited regards the promotion and preservation of the environment as a mutual objective for Management and employees at all levels.

We are fully committed to protecting and continually improving the quality of our working and surrounding local environments, and are committed to working pro-actively with, and communicating this policy to our employees, customers, sub-contractors, and all other external influences to achieve a safer, cleaner, healthier, and sustainable environment, which will meet present and future needs and regulatory requirements.

The objectives of this policy are to:

- Reduce the production of waste and encourage wherever possible it's re-use or recycling.
- Encouraging greater staff involvement through energy awareness training and the understanding of environmental issues and continual environmental improvements.
- Encouragement of staff to become more aware, efficient, and sustainable in their use and the preservation of energy.
- Evaluate environmental impacts when considering new products, plant, vehicles, equipment, buildings, and processes.
- Prevent pollution and nuisance.
- Manage the correct safe and effective disposal of waste materials through approved agencies.

Top Tubes Limited will comply with environmental laws, legislation, regulations, and other requirements relevant to our business and will monitor our office administration, production, warehousing, and transport processes to ensure that the company's operations are effectively managed and controlled in accordance with the requirements of BS EN ISO 9001, BS EN ISO 14001 and incorporates the requirements of BS EN 10219-1, BS EN 10305-1, and BS EN 1090-1. We are committed to the continual improvement of our QEMS/FPC that supports the enhancement of our environmental performance.

This policy will be communicated to all staff and any necessary external interested parties i.e. sub-contractors that may be working on our behalf. It will be made available to the public upon request and through our web site.

The Directors will formulate environmental improvement objectives at least annually, during management reviews and will ensure the routine monitoring, measurement, performance, and continual improvement of the QEMS/FPC management system plus compatibility with the context and strategic direction of the organisation.
